Electric Wind

Photography Portfolio by Celin Aubele

Electric Wind

The winds are howling,
cold and dark,
the current is buzzing,
silent with mark.

They're related,
electricity and wind,
electric wind.

The trees are rustling,
loud and tall,
the posts are exceeding,
charged, don't fall.

We take what we want,
put things where they don't belong,
electricity in wind;
electric wind.

DANGER OF DEATH
KEEP OFF
